

ORION™

Reverse Osmosis & CEDI for Pharmaceuticals

Orion™ packaged systems are pre-validated, skid-mounted and hot water sanitisable. Developed specifically for the pharmaceutical market, they are compliant with all industry requirements. Orion systems have over 80 standard configuration options. Orion is divided into 3 sections:

C Series - Our classic Orion offers you the core Orion technology within the most economical investment package.

E Series - Our mid-range Orion reduces water during recycle mode. It also conserves energy to meet good environmental practices.

S Series - Our premier Orion meets the ultimate requirements for sustainability. Optimised technologies reduce overall energy and water consumption and offers long term operational savings.
